DIRECTORS' REPORT (Contd.)**THE IMPACT ON BUSINESS AND HEALTH DUE TO OUTBREAK OF COVID-19 PANDEMIC**

The COVID-19 has been emerged as a global challenge, creating disruption across the world and projected as worse than the Great Depression faced by the globe ever. Businesses are severely impacted and must navigate the financial and operational challenges while simultaneously addressing the needs of their workforce, customers and suppliers. The Board of directors is facing the challenging task of managing the impact of the pandemic on risk management due to reduced demand, disrupted supply chain or operational interruptions, employee health issues, or liquidity constraints. Since, the financial year 2020-21 had started with strict Lockdown due to covid-19 pandemic and all the industrial or normal life was in closed mode and there is virtually no area of business that has not been hit by the covid-19 pandemic and at that time the Indian Economy was in silent mode. Gradually, the pandemic situation was improving in the entire nation and the government has removed the lockdown from the mid of the first quarter. However, The Indian Government has taken some major steps like, to follow social distancing, to operate offices and factory with minimal or no staff and to encourage for work from home, always wear face mask etc. due to which the entire chain has been affect, like shortage in supply of raw material, decrease in demand of finished goods due to which there is slow down in manufacturing activities, construction activities etc. and your company's business solely depends on construction activity.

LIQUIDITY

We maintain sufficient cash to meet our strategic and operational requirements. We understand that liquidity in the Balance Sheet has to balance between earning adequate returns and the need to cover financial and business requirements. Liquidity enables us to be agile and ready for meeting unforeseen strategic and business needs. We believe that our working capital is sufficient to meet our current requirements. The principal sources of liquidity of your Company consist of cash and cash equivalents, others (Balance in Current account) and the cash flow that we generate from our business operations. For the financial year ended March 31, 2021 your company has ₹340.40 lakhs in account of cash and cash equivalents.

BASIC EPS

The Basic Earnings per Share has decreased by 926.67% i.e. to -2.48 as compared from 0.30 of previous year 2019-20.

DIVIDEND

The Board of Directors of your company, after considering holistically the relevant circumstances and financial performance of the company, has decided that it would be prudent, not to recommend any dividend for the financial year 2020-21 under review. Your directors are working towards achieving higher results during the fourth coming years and also your directors intent to reduce the finance cost as early as possible.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT FORMING PART OF THE DIRECTORS' REPORT**INDUSTRY STRUCTURE AND DEVELOPMENT**

The global ceramic tiles market size is projected to grow from USD 207.7 billion in 2020 to USD 285.1 billion by 2025, at a Compound Annual Growth Rate of 6.5% from 2020 to 2025. The world's second largest tile producer with volumes over the 1.1 billion square meters mark, the Indian ceramic industry holds potential to become the largest producer in the world, as the industry is looking to almost double its turnover in coming years. The growth of the industry is majorly driven by the increasing demand for ceramic tiles, sanitary wares, pipes, etc., for construction application within India and exports to the Middle East, Europe, and other newer destinations. Glazed vitrified tiles, as one of the major tile trends, is expected to witness the highest growth during the forecast period in 2021, owing to its high durability and luxurious appearance. Based on the consumers, the floor and wall tiles market is segmented into residential, commercial, and others. The residential sector is expected to hold a major market share during the coming period, mainly due to increasing population and growth in disposable income. Currently, vitrified tiles account for almost 50% of total tile sales in the Indian tiles industry, and are expected to reach around 501.70 Bn INR by the end of 2023.

The Indian tile industry is certainly being driven by increased spending on infrastructure by the government, speeding urbanization, emerging trends, and the growing need for more infrastructures, further increasing the demand for vitrified tiles. The government's push to housing and sanitation development, implementation of proposed goods and service tax and favorable demographic profile, drives the Indian tile market, alongside the boost from the 'Make in India' initiative. Also, government schemes - like Pradhan Mantri Awas Yojana (Urban and Gramin) that aim at 'housing for all' by the year 2022, with an estimate of providing around 2 crore houses to eligible recipients, out of which 104 lakh houses are already sanctioned till date, will certainly drive the demand for tiles in India for next few years.

However, COVID-19 pandemic has shut-down the production of ceramic tiles in India, mainly owing to the prolonged lockdown in two quarters of year 2020. This has hampered the growth of India ceramic tiles market significantly from last few months, as is likely to continue during 2021. Moreover, the COVID-19 has already affected the residential and commercial construction industry in the first quarter of 2020 and is likely to cause a negative impact on the market growth throughout the year.

ABOUT CERAMIC MARKET AND COMPETITION:

India is one of the fastest-growing ceramic tile markets in the world. The government on housing and sanitation, favorable demographic profile, and increasing urbanization drive the Indian ceramic tile market. Movement of large amounts of population to urban areas for employment and a better standard of living are driving the demand for the construction sector in the country. The construction sector, which in turn is driving the ceramic tiles market, is positively influenced by high demand growth. The Indian ceramic tiles market is a highly fragmented one with a large number of local and regional players in attendance. The ceramic tiles market consists of both organized and unorganized players in the 40:60 ratio. At present due to the huge number of unorganised tile manufacturers in the Indian market, National brands contribute less than 50% of the domestic and export market.

OPPORTUNITIES AND THREATS

The Indian Ceramic Tiles industry is highly fragmented in nature, with many small-size family owned entities. The industry enjoys some inherent advantages such as abundant raw material from indigenous sources, advanced infrastructure and low labour costs. The growing urbanization in India is likely to remain a major growth driver for the ceramic tiles market. Investments are made in housing, smart cities, and other forms of urban management. Urbanization boosts the demand for residential and commercial construction markets in the country, which has fueled rapid growth for the Indian ceramic tiles market. Moreover, nearly 10 million people are migrating to the urban area every year in India, which is expected to form 77 new cities with more than 1 million populations by 2030.

However, The COVID-19 pandemic has shut-down the production of ceramic tiles in India, mainly owing to the prolonged lockdown in two quarters of year 2020. This has hampered the growth of India ceramic tiles market significantly from the first quarter during 2021. Moreover, the COVID-19 has already affected the residential and commercial construction industry and is likely to cause a negative impact on the market growth throughout the year. Apart from these challenges, Ceramic industry is facing challenges with regards to raw material availability, environmental issues, social issues, products dumping from China and energy availability.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT FORMING PART OF THE DIRECTORS' REPORT (Contd.)

SEGMENT-WISE OR PRODUCT-WISE PERFORMANCE

The financial performance and operational performance have been more fully described in the Director's Report. Shareholders may refer to the same in the Director's report and financial statements for further reference.

OUTLOOK

India is one of the fastest-growing ceramic tile markets in the world, fuelled by the growing construction sector in the country and a rise in exports to the advanced nations, the Indian ceramic industry, which has the potential to be the largest producer in the world, is looking to double its turnover in the coming years. The domestic industry has also now moved on from traditional products such as floor tiles to other value-added products such as glazed vitrified tiles and polished vitrified tiles.

While, domestic sales were impacted, due to Covid-19-induced lockdown in the country, exports remained continued to grow in 2021-22 which restricted the decline in overall size of the industry. Non-availability of migrant labour on construction sites is a concern and may impact project deliveries. Supply chains too have been impacted post COVID-19 restricting availability of materials needed for production of tiles in the short term.

RISKS AND CONCERNS

COVID-19 has already impacted on every country's GDP. The nationwide lockdowns and the shutdown of non-essential industries have caused a downfall in the global economy. The falling demand from customers worldwide has led the world into a global recession and total recovery is not expected in the near future. Many construction projects and activities, including government infrastructure projects, which were initially running, came to a complete halt due to the imposition of lockdowns. Even after the easing of lockdowns restrictions in several countries, construction companies will work with reduced finances, labor, and working hours, which is further going to delay project deliveries. It is estimated that initially, government projects will resume operations; however, with the constraint of budgeted revenue, it will be difficult for even government to finance the big projects for the rest of the year. The impact of the slowdown of the construction industry was felt by the ceramic tiles industry as well. Apart from the shutdown of production facilities, the cancellation of several projects in the commercial and industrial construction sector will lead to the reduced demand for ceramic tiles in 2021-22.

Apart from the above, manufacturing of tile is an extremely energy-intensive manufacturing process; power, gas, and transportation cost are the vital cost-related concerns impacting the industry. Uniformity in power and fuel availability at reasonable rates is vital for the growth of the ceramic tiles industry. Volatile and unstable markets have significant negative consequences, which are primarily faced by the manufacturing organizations. Furthermore, there is greater volatility in the pricing of raw materials used for manufacturing ceramic tiles. Rising costs and unexpected deviations in raw material price levels destabilize the supply chains and render it difficult for manufacturers to sustain in the competitive ceramic tiles market.

INTERNAL CONTROL SYSTEMS AND ADEQUACY

The Company has aligned its current systems of internal financial control with the requirement of Companies Act 2013, which is intended to increase transparency and accountability in an organization's process of designing and implementing a system of internal control. INDEPENDENT AUDITORS' REPORT

To,

The Members of MURUDESHWAR CERAMICS LIMITED

Report on the Audit of Standalone Ind AS Financial Statement

Opinion:

We have audited the standalone Ind AS financial statements of **Murudeshwar Ceramics Limited** ("the Company"), which comprise the Balance Sheet as at 31 March 2021, and the Statement of Profit and Loss (including other comprehensive income), Statement of Changes in Equity and Statement of Cash Flows for the year then ended, and notes to the standalone Ind AS financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the standalone Ind AS financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2021, the profit / loss and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion:

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Standalone Ind AS financial statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone Ind AS financial statements under the provisions of the Act and the Rules there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the Standalone Financial Statements.

Key Audit Matters:

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

we have determined the matters described below to be the Key Audit matters to be communicated in our report.

Key Audit Matters	Auditor's Response
<p>1. Inventory</p> <p>The Value of inventory as at 31.03.2021 is 10,449.56 lakhs which is 22.14% of total asset value. given the size of the inventory balance relative to the total asset size of the company, the valuation of inventory required significant audit attention</p> <p>As disclosed in the notes forming part of statement of accounts inventories are held at the lower of cost or net realisable value determined using weighted average cost</p> <p>The determination of valuation of inventory requires management to exercise qualitative judgments and apply assumptions</p>	<p>We have performed the following procedures w.r.t valuation of the inventory and assessment of procedures of physical verification of inventory during the period to ensure accuracy of inventory reporting.</p> <p>On a sample basis, we tested the net realisable value of inventory to recent selling prices.</p> <p>We have also considered the stock audit report by stock auditors engaged by the lending bank to ensure that there are no inconsistencies in reporting.</p> <p>At the year end the valuation of inventory is reviewed by management and cost of inventory is revalued where inventory is forecast to be sold below cost.</p> <p>In the view of the management, basic raw material used is clay for manufacturing of tiles and the same being a natural resources, does not have any depletion in value over the passage of time.</p>
<p>2. Property, Plant and Equipment</p> <p>Additions to Fixed assets during the year were 836.45 lakhs(including CWIP of the previous year).</p>	<p>Our audit procedures included testing the design implantation and operating effectiveness of controls in respect of review</p>

INDEPENDENT AUDITORS' REPORT (Contd.)

inappropriate timing of capitalization of project/ inappropriate classification of categories of the items of PPE could result in material misstatement of CWIP/ PPE with consequent impact on depreciation charge and results for the year

of capitalization of assets, particularly in respect of timing of the capitalization and recording of additions to items of various categories of PPE with source documentation, substantive testing of appropriateness of cut-off date considered for project capitalization

We tested the source documentation to determine whether the expenditure is of capital nature and has been approved and segregated into appropriate categories. We reviewed operating expenses to determine the appropriateness of accounting.

Information Other than the Financial Statements and Auditor's Report Thereon:

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Standalone Ind AS financial statements:

The Company's management and Board of Directors are responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these standalone Ind AS financial statements that give a true and fair view of the state of affairs, profit / loss, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including Indian Accounting Standard (Ind AS) specified under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended.. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone Ind AS financial statements, management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Ind AS financial statements:

Our objectives are to obtain reasonable assurance about whether the standalone Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also :

- Identify and assess the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

INDEPENDENT AUDITORS' REPORT (Contd.)

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to standalone Ind AS financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone Ind AS financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone Ind AS financial statements, including the disclosures, and whether the standalone Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

Communication with those charged with governance

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - (b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid Ind AS financial statements have been kept by the Company so far as it appears from our examination of those books;
 - (c) The balance sheet, the statement of profit and loss (including other comprehensive income), the statement of cash flows dealt with by this Report are in agreement with the books of account maintained for the purpose of preparation of the Ind AS financial statements;

INDEPENDENT AUDITORS' REPORT (Contd.)

- (d) In our opinion, the aforesaid Ind AS financial statements comply with the Accounting Standards specified under Section 133 of the Act read with relevant rule issued there under.
- (e) On the basis of the written representations received from the Directors of the Company as on 31 March 2021 taken on record by the Board of Directors of the Company, none of the directors is disqualified as on 31 March 2021 from being appointed as a director in terms of Section 164 (2) of the Act;
- (f) With respect to the adequacy of the internal financial controls over financial reporting and the operating effectiveness of such controls, refer to our separate report in "Annexure A", which is based on the auditors' report of the company.
- (g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended : In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act
- (h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

ANNEXURE "A" TO THE INDEPENDENT AUDITORS' REPORT

(Referred to in paragraph 1(f) under 'Report on Other Legal & Regulatory Requirement' of our report to the members of Murudeshwar Ceramics Limited of even date)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act") of Murudeshwar Ceramics Limited

We have audited the internal financial controls over financial reporting of **Murudeshwar Ceramics Limited** ("the Company") as of 31 March 2021 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls :

The Board of Directors of the Company is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

ANNEXURE “A” TO THE INDEPENDENT AUDITORS’ REPORT (Contd.)

Auditor’s Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. The Guidance Note and those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting:

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion:

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2021, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

These financial statements are separate financial statements prepared in accordance with Indian Accounting Standards ("Ind AS"), the provisions of the Companies Act, 2013 ("the Act") (to the extent notified) and guidelines issued by the Securities and Exchange Board of India (SEBI). The Ind AS are prescribed under section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 as amended from time to time.

Accounting policies have been consistently applied except where a newly-issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

Functional and presentation currency

These financial statements are presented in Indian Rupees (INR), which is also the Company's functional currency. All amounts have been rounded-off to the nearest lakhs, unless otherwise indicated.

Basis of measurement

The financial statements have been prepared on the historical cost basis except certain financial assets and liabilities which are required to be measured at fair value as per Ind AS.

2. Use of estimates and judgement

In the application of the Company's accounting policies, the directors of the Company are required to make judgments, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

The key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

Current / Non-Current Classification

The Company recognizes any asset or liability as current if it satisfies any of the following conditions :

- a) Asset/Liability is expected to be realized/settled during the company's normal operating cycle.
- b) The asset is intended for sale or consumption.
- c) The Asset/Liability is held primarily for the purpose of trading.
- d) The Asset/Liability is expected to be realized/settled within 12 months after the reporting period.
- e) The Asset is cash/cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting date.
- f) In the case of the liability, the company does not have an unconditional right to defer the settlement of liability for at least 12 months after the reporting date.

All other assets/liabilities are classified as non-current.

Estimation of uncertainties relating to the global health pandemic from COVID-19 ("COVID-19") :

The Company has considered the possible effects that may result from the pandemic relating to COVID-19 in the preparation of these financial statements including the recoverability of carrying amounts of financial and non-financial assets. In developing the assumptions relating to the possible future uncertainties in the global economic conditions because of this pandemic, the Company has, at the date of approval of these financial statements, used internal and external sources of information including credit reports and related information and economic forecasts and expects that the carrying amount of these assets will be recovered. The impact of COVID-19 on the Company financial statements may differ from that estimated as at the date of approval of these financial statements.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS (Contd.)

3. Revenue

- i) Disclosure as per Ind AS 115 "Revenue from contract with Customers" – Revenue from contract from customers is recognized on transfer of control of promised goods or services to a customer at an amount that reflects the consideration to which the company is expected to be entitled to in exchange for those goods or services. The Transaction price of goods sold, and services rendered is net of variable consideration on account of various discounts and schemes offered by company as part of the contract. Revenue is recognized only to the extent that it is highly probable that the amount will not be subject to significant reversal when uncertainty relating to its recognition is resolved.
- ii) Sale of Products - Revenue from sale of products is recognized when the control on the goods have been transferred to the customer. The performance obligation in case of sale of product is satisfied at a point in time that is, when the material is shipped to the customer or on delivery to the customer as may be specified in the contract.
- iii) Rendering of Services - The Revenue from services is recognized over time by measuring progress towards satisfaction of performance obligations for the services rendered. The company uses output method for measurement of revenue from services.
- iv) Interest – Interest income from a financial asset is recognized when it is probable that the economic benefits will flow to the company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that assets net carrying amount on initial recognition.
- v) Dividend – Revenue is recognized when the shareholders' or unit holders' right to receive payment is established, which is generally when shareholders approve the dividend.
- vi) Rental Income – Rental income from the properties given on lease (net of any incentives given to the lessees) is recognized on accrual basis over the lease term.

4. Expenses

All expenditures are accounted on accrual basis after reducing any specific income attributable to such expenditure.

5. Property, plant and Equipment

The cost of property, plant and equipment comprises its purchase price net of any trade discounts and rebates, any import duties and other taxes (other than those subsequently recoverable from the tax authorities), any directly attributable expenditure on making the asset ready for its intended use, including relevant borrowing costs for qualifying assets and any expected costs of decommissioning. Expenditure incurred after the property, plant and equipment have been put into operation, such as repairs and maintenance, are charged to the Statement of Profit and Loss in the period in which the costs are incurred. Major shut-down and overhaul expenditure is capitalized as the activities undertaken to improve the economic benefits expected to arise from the asset.

Capital Work in Progress

The cost of assets not ready for intended use, as on the balance sheet date, is shown as Capital Work in Progress.

Depreciation commences when the assets are ready for their intended use

Depreciable amount for assets is the cost of an asset, or other amount substituted for cost, less its estimated residual value. Depreciation is recognized so as to write off the cost of assets (other than freehold land and properties under construction) less their residual values over their useful lives, using straight-line method as per the useful life prescribed in Schedule II to the Companies Act, 2013 except in respect of Plant and Machinery and Factory building, in those case the life of the assets has been assessed as under based on technical advice, taking into account the nature of the asset, the estimated usage of the asset, the operating conditions of the asset, past history of replacement, anticipated technological changes, manufacturers warranties and maintenance support, etc.

Depreciation is provided on estimated useful lives of the assets as per Schedule – II of the Companies Act, 2013 except for the following assets where the useful life has been estimated based on the technical estimate.

Assets	Estimated Life	Life as per Schedule-II
Plant & Machinery	25-30 Years	20 Years
Building / Factory	50 Years	60 Years

Amounts spent on Site preparation at Quarry for mining of Clay have been capitalized under the head Building- Others and Depreciation provided accordingly.

No depreciation is charged on capital work in progress and free hold land.

The Company reviews the residual value, useful lives and depreciation method annually and, if expectations differ from previous estimates, the change is accounted for as a change in accounting estimate on a prospective basis.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS (Contd.)**Derecognition**

The carrying amount of an item of property, plant and equipment, is de-recognized on disposal or when no future economic effects are expected from its use or disposal. The Gain or Loss arising from the Derecognition of an item of property, plant and equipment is measured as the difference between the net disposal proceeds and the carrying amount of the item and is recognized in the statement of profit and loss when the item is derecognized.

6. Inventories

Raw Materials, Work in progress, Finished goods, packing materials, stores, spares, components, consumables and stock in trade are carried at the lower of cost and net realizable value. However, the materials and other items held for use in production of inventories are not written down below cost. If the finished goods in which they will be incorporated are expected to be sold at or above cost. The comparison of cost and net realizable value is made on an item by item basis. Net realizable value is the estimated selling price in the ordinary course of the business less estimated cost of completion and estimated costs necessary to make the sale.

In determining the cost of raw materials, packing materials, stock in trade, stores, spares, components and consumables weighted average cost method is used. Cost of inventory comprises all costs of purchase, duties, taxes (other than those subsequently recoverable from the tax authorities) and all the other costs incurred in bringing the inventory to their present location and condition.

Cost of finished goods and work in progress, includes the cost of raw materials, packing materials, an appropriate share of fixed and variable production overheads and other costs incurred in bringing the inventories to present location and condition. Fixed production overheads are allocated on the basis of normal capacity of production facilities.

7. Leases

Ind AS 116 requires lessees to determine the lease term as the non-cancellable period of a lease adjusted with any option to extend or terminate the lease, if the use of such option is reasonably certain

The Company's lease asset classes primarily consist of leases for shops. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether : (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use (ROU) asset and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of 12 months or less (short-term leases) and low value leases. For these short term and low-value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements includes the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The ROU assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

ROU assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. ROU assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country or domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related ROU asset if the Company changes its assessment of whether it will exercise an extension or a termination option.

Lease liability and ROU assets have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

8. Investments in associate company

The company has elected to recognize its investments in associate company at cost in accordance with the option available in IND AS 27 "Separate financial statements".

NOTES FORMING PART OF THE FINANCIAL STATEMENTS (Contd.)
9. Taxes on Income
Current Tax

The current tax is determined on the basis of taxable income and tax credits computed in accordance with the provisions of Indian Income Tax Act, 1961.

Deferred Tax

Deferred income tax is provided using the liability method on all timing differences at the balance sheet date between tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the tax rates and tax laws substantively enacted at the balance sheet date. In assessing the realisability of deferred income tax assets, the Management considers whether some portion or all of the deferred income tax assets will not be realized. The ultimate realization of deferred income tax assets is dependent upon the generation of future taxable income during the periods in which the temporary differences become deductible. The Management considers the scheduled reversals of deferred income tax liabilities, projected future taxable income and tax-planning strategies in making this assessment. Based on the level of historical taxable income and projections for future taxable income over the periods in which the deferred income tax assets are deductible, the Management believes that the Company will realize the benefits of those deductible differences. The amount of the deferred income tax assets considered realizable, however could be reduced in the near term if estimates of future taxable income during the carry forward period are reduced.

10. Financial Instruments

The Company recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognized at fair value on initial recognition, except for trade receivables which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities are considered as cost on initial recognition.

The management assessed that the fair value of cash and cash equivalents, trade receivables, loans, other financial assets, trade payable and other financial liabilities approximate the carrying amount largely due to short-term maturity of these instruments.

The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

Fair Value Hierarchy

Financial assets and financial liabilities measured at fair value in the statement of financial position are grouped into three Levels of a fair value hierarchy. The three Levels are defined based on the observability of significant inputs to the measurement, as follows.

Level 1 : Quoted prices (unadjusted) in active markets for financial instruments.

Level 2 : The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximize the use of observable market data rely as little as possible on entity specific estimates.

Level 3 : Inputs for the assets or liabilities that are not based on the observable marked data (unobservable inputs)

Measurement of fair value of financial instruments

The fair value measurement is not applicable since there was no financial assets and liabilities are measured at fair value.

Financial Risk Management

The Company's principal financial liabilities comprise borrowings, trade payables and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include trade & other receivables, cash & cash Equivalent, investment, other balances with banks, loans and deposits that derive directly from its operations.

Company is exposed to following risk from the use of its financial instrument.

1. Market Risk
2. Credit Risk
3. Liquidity Risk

1. Market Risk : Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. The market risk comprises three types of risk: Interest rate risk, Foreign currency risk and another price risk.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS (Contd.)

- a) Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of market interest risk. The Company's exposure to risk of changes in market interest rates is minimal. The company has not used any interest rate derivatives.
 - b) Foreign currency risk : Foreign currency risk is the risk that the fair value of future cash flows of an exposure will fluctuate due to changes in foreign exchange rates. The company has not entered into any forward exchange contracts/derivative contracts.
 - c) Other price risk is the risk that the fair value of a financial instrument will fluctuate due to changes in market traded prices. The company has not invested in any traded equity instruments or bonds.
- 2. Credit risk :** The credit risk refers to the risk that a counterparty will default on its contractual obligation resulting in financial loss to the company. Credit risk arises from financial assets such as trade receivables, other balances with banks, loans and other receivables. The Company has adopted a policy of only dealing with the counterparties that have sufficiently high credit ratings. The exposure and credit ratings of the counterparties are continuously monitored, and aggregate value of transactions is reasonably spread amongst the counterparties. There are no cases of historical defaults and hence no provision for expected credit loss is necessary.
- 3. Liquidity risk :** The liquidity risk is the risk that the company will encounter difficulty in raising funds to meet the commitments associated with financial instruments that are settled by delivering cash or another financial asset. The company has established liquidity risk management framework for managing its short term, medium term and long term and liquidity management requirements. The company has adequate credit facilities agreed with banks to ensure that there is sufficient cash to meet all its normal operating commitments in a timely and cost-effective manner.

11. Borrowings and Borrowing Cost

Borrowings are recognized initially at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortized cost. Any difference between the proceeds (net of transaction costs) and the redemption value is recognized in the income statement over the period of the borrowings using the effective interest rate method.

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

All other borrowing costs are recognized in statement of profit and loss in the period in which they are incurred.

12. Provision and contingencies

The company recognizes provisions when a present obligation (legal or constructive) as a result of a past event exists and it is probable that an outflow of resource embodying economic benefits will be required to settle such obligation and the amount of such obligation can be reliably estimated.

13. Cash and cash equivalents

Cash and cash equivalent for the purpose of balance sheet comprises of cash and banks balances.

14. Earnings per share

Basic earnings per share is computed by dividing profit or loss attributable to equity shareholders of the Company by the weighted average number of equity shares outstanding during the year. The weighted average number of shares outstanding during the year is adjusted for events of bonus issue and share split.

Diluted earnings per share is computed by dividing the net profit after tax by the weighted average number of equity shares considered for deriving basic EPS and also weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented.

15. Employee benefits

(i) **Short term Employee benefits :** Employee benefits such as salaries, wages, short term compensated absences, expected cost of bonus, ex-gratia and performance – linked rewards falling due wholly within the twelve months or rendering the service are classified as short term employee benefits and are expensed in the period in which employee renders the related service.

(ii) **Post-employment benefits :**

A. **Defined contribution plans :** The company's superannuation scheme, the state governed provident fund scheme, employee insurance scheme and employee pension scheme are defined contribution plans. The contribution paid/payable under such schemes is recognized during the period in which the employee renders the related service.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS (Contd.)

B. Defined benefit plans : The present value of obligation under defined benefit plan is determined based on actuarial valuation using the Projected Unit Credit Method.

The obligation is measured at the present value of estimated future cash flows using a discount rate based on the market yield on government securities of a maturity period equivalent to weighted average maturity profile of defined benefit obligations at the balance sheet date.

Re-measurement, comprising actuarial gains and losses, the return on plan assets (excluding amount included in net interest on the net defined benefit liability or asset) and any change in the effect of asset ceiling (if applicable) is recognized in other comprehensive income and is reflected in Retained earnings and the same is not eligible to be reclassified to profit and loss.

Defined benefit costs comprising current service cost, past service cost and gains or losses on settlements are recognized in the Statement of Profit and loss as employee benefits expense, interest cost implicit in the defined benefit employee cost is recognized in the Statement of Profit and Loss under finance cost.

Gains or losses on settlement on any defined benefit plan are recognized when the settlement occurs. Past service cost is recognized as expense at the earlier of the plan amendment or curtailment and when the company recognized related restructuring costs or termination benefits.

In case of funded plans, the fair value of the plan assets is reduced from the gross obligation under the defined benefit plans to recognize the obligation on a net basis.

(iii) Long term employee benefits : The obligation recognized in respect of long term benefits such as compensated absences, long service award is measured at present value of estimated future cash flows expected to be made by company and is recognized in similar manner as in the case of defined benefit plans as above.

Gratuity – The Company provides for gratuity, a defined benefit retirement plan (“the Gratuity Plan”) covering eligible employees. The Gratuity Plan provides a lump-sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee’s salary and the tenure of employment with the company. Gratuity has been paid through an approved gratuity fund managed by the LIC of India. Premium paid thereon is accounted as expenditure. The Company has also provided for gratuity as per actuarial valuation performed by an independent actuary, at each Balance Sheet date using the projected unit credit method. These defined benefit plans expose the Company to actuarial risks, such as longevity risk, currency risk, interest rate risk and market risk.

Leave Encashment - Leave encashment has been determined based on the actuarial valuation, available leave entitlement at the end of each calendar year. The incremental amount so calculated each year is debited to Salaries and Wages - leave encashment.

The amendments revise Division I, II and III of Schedule III and are applicable from April 1, 2021. Key amendments relating to Division II which relate to companies whose financial statements are required to comply with Companies (Indian Accounting Standards) Rules 2015 are:

I. Balance Sheet:

- Lease liabilities should be separately disclosed under the head 'financial liabilities', duly distinguished as current or non-current.
- Certain additional disclosures in the statement of changes in equity such as changes in equity share capital due to prior period errors and restated balances at the beginning of the current reporting period.
- Specified format for disclosure of shareholding of promoters.
- Specified format for ageing schedule of trade receivables, trade payables, capital work-in-progress and intangible asset under development.
- If a group has not used funds for the specific purpose for which it was borrowed from banks and financial institutions, then disclosure of details of where it has been used.
- Specific disclosure under 'additional regulatory requirement' such as compliance with approved schemes of arrangements, compliance with number of layers of companies, title deeds of immovable property not held in name of company, loans and advances to promoters, directors, key managerial personnel (KMP) and related parties, details of benami property held etc.

II. Statement of Profit and Loss:

- Additional disclosures relating to Corporate Social Responsibility (CSR), undisclosed income and crypto or virtual currency specified under the head 'additional information' in the notes forming part of the Consolidated Financial Statements.

The amendments are extensive, and the Company will evaluate the same to give effect to them as required by law.
